ELECTRICAL SAFETY SOLUTIONS

INCREASE SAFETY | OSHA COMPLIANT
ELIMINATE RISKS | ENHANCE QUALITY

Prioritize and Elevate your
SAFETY COMPLIANCE with **EPCO's**
Electrical Solutions.

OSHA COMPLIANT | CUSTOM CAPABILITIES

EPCO | Engineered Products Company prioritizes safety in all the products we manufacture. To eliminate risks and increase safety on the job site, we adhere to stringent industry standards and regulations such as:

- Safety Certifications and Standards:
 - UL and ETL Listings
 - National Electrical Code (NEC) Compliance
 - Additional Certifications depending on the product type
- Product-Specific Safety Features:
 - Grounding and Bonding
 - Fire-Resistant Materials
 - Clear Labeling and Instructions
 - Quality Control

EPCO: YOUR TRUSTED PARTNER FOR ELECTRICAL SAFETY SOLUTIONS!

**EPCO
PREFAB
SOLUTIONS
REDUCE LADDER
TIME**

LOWER YOUR EXPERIENCE MODIFICATION RATING (EMR)

We know safety, staying compliant with OSHA standards, and keeping your Mod Rating (EMR) low are important. EPCO's Prefab Solutions can contribute to reducing your Mod Rating (EMR) by:

- **Reduced Ladder Usage and Falls:** EPCO's temp lights provide more lumens than the competition meaning fewer fixtures are needed. Our 277V ready temp lights allow contractors to have more lights on fewer circuits. *Fewer fixtures and fewer circuits = less time spent working overhead.*
- **Reduced Rework:** EPCO's TIGER XL and TIGRESS Prefab Temp Lights allow the contractor to wire directly into the junction box. No need to cut cords or rewire fixtures.

**CHOOSE EPCO:
WHERE SAFETY MEETS PERFORMANCE!**

PRODUCTS MEET
PERFORMANCE &
QUALITY
STANDARDS**

ADDITIONAL BENEFITS

- **Enhanced Safety and Hazard Mitigation** because EPCO's quality control ensures our products meet strict performance and quality standards so you don't have to. Install EPCO products with confidence.
- **Reduced Material Waste:** By using EPCO's prefab whips and grounding products contractors have less material on the job site resulting in less waste.
- **Improved Project Management and Communication:** Prefabrication leads to a more controlled and predictable work environment, reducing stress on workers and potential safety hazards.

By utilizing EPCO's prefabrication solutions, electrical contractors can create a safer work environment, reduce worker injuries, and contribute to a lower MOD rating (EMR).
